

# GREYSTONE

A U S T R A L I A *Get on with life!*

## Travel Fence: Set up in minutes...

Greystone's new Travel Fence was designed for clients that like to travel with their horses.

Whether you attend shows, enjoy camping or a trip to the beach, the Travel Fence will give you the peace of mind that others cannot interfere with your horse's space.

Unlike heavy steel gates the Travel Fence is a fully portable system that can be set up on flat or uneven terrain in minutes.

The functional smart looking white float cover attaches permanently to the side of your horse float and is easily fitted by the home handyman with our supplied fitting template and hardware.

Each float cover comes complete with 2 x 4 metre retractable tapes making set up a breeze as you simply extend each tape to your posts, that have been set up to suit your space requirement.

Our base set produces a 4 metre square yard and additional post sets can also be purchased to make a larger yard if required.

Wall mount...

Electric kit....

Electric kits are also available as an optional extra & are easily fitted to your energizer or power supply. Handy if your horse likes to lean on fencing.

When you are ready to leave simply retract the tapes back to the main float cover and pack the posts and legs into their own handy Greystone carry bag.

No noise, no heavy lifting, just another easy to use Greystone product that makes travelling easier.
